EXECUTIVE OFFICER'S REPORT

September 11, 1986

I approve by executive action the change in catalog copy for Arts and Sciences courses 3103, 3203, and 3303 from (Arr-Arr-3) to (3-0-3). This represents the courses as they are taught. The "Arranged" originally was intended to reflect the fact that the time scheduled for these summer courses to meet was scheduled by arrangement, in the same way that independent study is scheduled by arrangement, not that the total of hours in class or lab was to be determined by arrangement. As the courses are taught, the class meets for a total of three hours a week and there is no lab. Current catalog copy is therefore misleading.

EXECUTIVE OFFICER'S REPORTSeptember 18, 1986

In order to be consistent in readmission policy for former students who interrupted their enrollment at EIU and who apply for readmission and students who were dismissed for low scholarship and are seeking readmission, it has been recommended by the Dean of Student Academic Services that the attached copy be substituted for that currently appearing in the University undergraduate catalog. I herewith approve the proposed revision by executive action.

Catalog Copy Change --

READMISSION (Revise Second Paragraph to Read):

A former undergraduate student who has attended one or more regionally accredited colleges or universities since last attending Eastern Illinois University may be readmitted provided the following two conditions are met with respect to course work taken since last in attendance at Eastern: (1) the composite GPA in all course work attempted is at least 2.00 on a 4.00 scale AND (2) the GPA at the last college or university attended is at least 2.00 on a 4.00 scale. If the student is attending another regionally accredited college or university at the time of applying for readmission, a statement from that institution indicating the student is earning at least a 2.00 on a 4.00 scale for course work subsequent to last attending Eastern will suffice until the official transcript can be sent at the end of the term.

(Revise Fourth Paragraph to Read):

A former undergraduate student dismissed for low scholarship who has attended one or more regionally accredited colleges or universities since last attending Eastern Illinois University may be readmitted provided the following two conditions are met with respect to course work taken since last in attendance at Eastern: (1) the composite GPA in all course work attempted is at least 2.00 on a 4.00 scale AND (2) the GPA at the last college or university attended is at least 2.00 on a 4.00 scale. If the student is attending another regionally accredited college or university at the time of applying for readmission, a statement from that institution indicating the student is earning at least a 2.00 on a 4.00 scale for course work subsequent to last attending Eastern will suffice until the official transcript can be sent at the end of the term.
